PROFILE

I am a highly motivated and passionate individual with a keen interest in the field of image and multimedia with artificial intelligence. As a current student pursuing a degree in computer science, I have a solid foundation in programming and mathematics that allows me to explore and understand the complex and ever-evolving world of multimedia. My fascination with the visual arts and my desire to create meaningful and interactive user experiences drives my pursuit of knowledge in this field. With a strong desire to continue expanding my skill set, I am eager to take on new challenges and collaborate with like-minded individuals to bring innovative and exciting ideas to life.
